

# ***Vacuum mats for the Veterinarian***

***Vacuum immobilising  
during Surgery,  
MRI, CT and  
X-ray***

### ***Great benefits:***

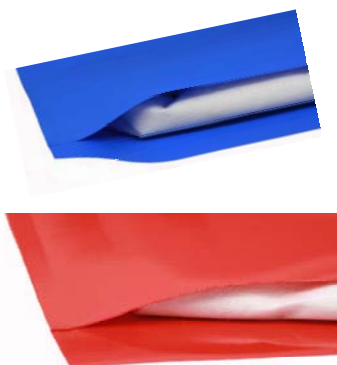

- conforms to the animals body
- removes pressure points
- quick and easy positioning
- optimum access to the operating site
- improved efficiency in the operating room

### ***Features of all VetVac products***

#### ***High quality polyurethane cover:***

- extremely tough and puncture resistant TPU material guarantees long life
- clean design without places that can trap fluids and dirt makes it easy to clean
- PVC and Latex free

#### ***Automatically closing valve:***

- The vacuum valve closes automatically when suction stops. No risk of losing vacuum if slipping with the pump

#### ***Practical hanger***

***Compatible with X-ray, CT and MRI. CE marked***
