# Developed and manufactured in Austria

Kohlbrat & Bunz products are developed and manufactured 900 meters above sea level in the middle of the Austrian Alps in its own facilities by its experienced and meticulously working staff.

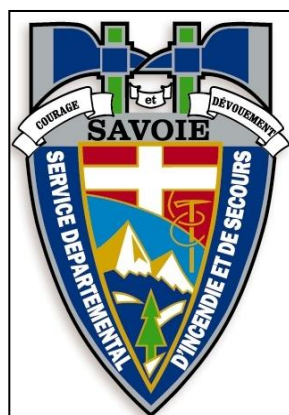

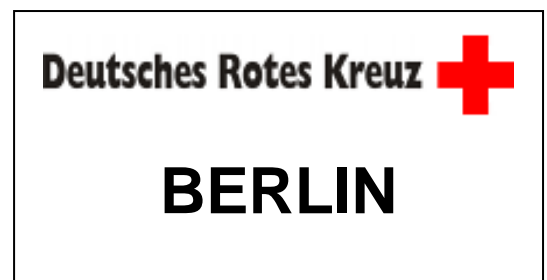

People living in the Alps know very well that products used under the extreme conditions of alpine rescue have to work perfectly.

To meet these rigorous demands our products are developed in close cooperation with the mountain rescue teams and other demanding emergency services.

This cooperation has brought about a selection of the best materials and optimal product design leading to products of outstanding performance and quality. To insure the best possible quality Kohlbrat & Bunz work in accordance with EN ISO 9001 & EN ISO 13485.

## Worldwide in use

We are very proud of the confidence shown to us and our products by many well-known and demanding emergency services worldwide and are happy to show some examples of their beautiful logos that they have asked us to put on the RedVac products we have made for them.

# The RedVac System

**for PATIENT SAFETY, PERFECT HYGIENE  
& EASE OF USE**

- The RedVac CLICK-System**  
*for attachment of straps and handles*

*The unique CLICK-System makes removal of straps and handles for repositioning, replacement, cleaning and disinfection very easy!*

- The RedVac Multi-Chamber-Systems**  
*- provides unmatched EASE OF USE*

*The Multi-Chamber-Systems keeps the internal beads evenly distributed eliminating the need for difficult and time consuming manual spreading of the beads. This enables fast, safe and easy application in all situations.*

**The RedVac Multi-Chamber-System!**

*The internal sack system keeps the beads evenly distributed in up to 120 chambers.*

**The RedVac DOT-Chamber-System!**

*The layers of the outer cover are welded together dot by dot creating chambers between the dots keeping the internal beads in their correct position, evenly distributed.*

- **Optional attachment systems for straps and handles**

**Cleats**

**Hook & Loop**

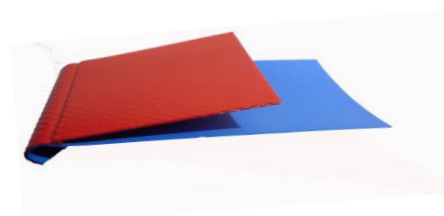

**Red Stripes**

- **Robust & durable exterior Material**

To achieve outstanding durability, abrasion resistance, tightness, easy cleaning and disinfection, comfort and safety for the patient special materials were chosen. It makes it possible to use the RedVac products in a wide temperature range, from -40°C up to +80°C.

- **Restraint Straps, made of polypropylene (PP) or wipe-clean coated fabric**

Colour coded patient restraint straps, adjustable from both sides, easy to clean, reposition or replace.

- **Vacuum Valve, screw-on, replaceable**

The valve is robust and easy to use, even when wearing gloves. It closes automatically when suction stops preventing loss of vacuum if slipping with the pump. Comes with suitable adapter for most vacuum pumps.

- **Vacuum Valve, welded-on, non-replaceable**

The valve is robust and easy to use, even when wearing gloves. It closes automatically when suction stops preventing loss of vacuum if slipping with the pump.

- **Label System**

An indestructible label with individual serial number and date of manufacture is welded onto every product. Optional labels with property indicator and distributor logo are available.

- **X-ray, CT and MRI compatible**

- **CE**

All RedVac products are CE marked and conform with the European directive 93/42/EEC for medical products class 1.

- **ISO9001 - ISO13485 certified by**
