PELI-HARDIGG™ SINGLE LID CONTAINERS

THE WIDEST SELECTION OF CASES IN THE WORLD

Rugged, uncompromising and trusted, Peli cases protect what matters to you, from the everyday to the extraordinary.

Peli-Hardigg™ rotomoulded Single Lid Containers are one-piece constructions, moulded from lightweight, high-impact polyethylene. With 20% more protective material in the edges and corners, where it is needed most, these heavy-duty containers ensure that valuable equipment is protected from impacts and the elements. Proven for over 60 years in the most demanding environments. Engineered and manufactured in the U.S. and the U.K.

Available in +500 sizes, Peli-Hardigg Single Lid Containers are completely customisable with a wide range of bolt-on options like document holders, casters, humidity indicators and many more.

FEATURES SINGLE LID CONTAINERS

+ HIGHER IMPACT RESISTANCE

A Peli-Hardigg Single Lid Case begins as resin powder that is measured and loaded into a mould attached to a biaxial arm. As the mould rotates, it is heated and 15%-20% more resin accumulates in the corners and edges. When the case is dropped (and it will be) it has extra strength where it is needed.

+ RECESSED HARDWARE, COLUMNAR RIBS

Recessed handles, latches and hinges prevents them from being sheared off during transport. Ribs are moulded in to create incredibly strong forms from lightweight material. Cases of like sizes have matching top and bottom ribs, so they won't shift when stacked.

+ ANTI SHEAR LOCKS

Moulded, interlocking blocks are matched around the rim of the case. When the case takes an impact, the lid stays aligned to the base.

+ WATERTIGHT TONGUE AND GROOVE SEAL

Keep your gear dry and dust-free in the harshest environments.

+ BELLS AND WHISTLES

With accessories and custom services from our Advanced Case Centers, a Peli-Hardigg Case can be a lot more than a box. Next we'll share some important options.

OPTIONS

+ HARD PROTECTION SYSTEMS

When foam is not appropriate, Peli specialises in custom metal work. Cradles or frames hold sensitive parts away from the walls of the case. The area between the frame and the case is the "sway space", and dampeners are used to isolate the part from shock and vibration. Dampeners can be mounted foam bumpers, or elastomeric shock mounts that can mitigate impacts up to 15 G forces.

Extreme case work: Engineered cradles for secure transport.

+ SELECTING THE CASE HARDWARE- IT'S ALL ABOUT YOU

Getting your equipment safely from point A to point B is paramount. To move your case around you might need wheels, or if the load is extreme we can install forklift spacers and a bash-plate. We can also help you with technical choices, such as standard or mil-spec purge valves (prevents vacuum lock in the event of altitude change). The list goes on: from handles and latches to desiccant chambers for removing humidity from the case.

+ TESTING... 1-2-3

The time to find out if your equipment is going to arrive intact is before it ships. That's why we have a full service test lab to verify survivability. As a matter of fact, Peli operates one of the few certified test labs in the country.
Drop tests, immersion, temperature extremes, G-force and vibration: we do it all to prove our cases perform to your specifications.

ROTO MOULDED CASES - PELI 1 YEAR LIMITED GUARANTEE

Peli Products, S.L.U. ("Peli") guarantees its rotationally moulded containers will be free of defects in materials and workmanship for a period of one year from the date of purchase. This warranty does not cover any associated hardware including closure hardware, retractable handles, wheels, and fasteners, which Peli warrants against defects in materials and workmanship for a period of 90 days from the date of purchase. This warranty applies only to the original purchaser and is not transferable. To the extent permitted by law: Peli's liability is limited to the case and not its contents. All warranty claims of any nature are barred if the container has been altered, damaged or in any way physically changed, or subjected to abuse, misuse, negligence or accident.
